A video presentation of the ACTFL German OPI with follow up skype discussion with Dr. Karl Otto, one of the producers of the video.

Most of us have heard of the OPI, but many of us have never been through an OPI Familiarization Workshop, nor seen an actual OPI. Awareness of the principles behind OPI testing can have a significant effect on the organization and implementation of classroom activities. This video provides a relatively short, yet complete introduction to the procedure and the skype session with Dr. Otto will give us an opportunity to ask questions about implementing OPI like activities in our classrooms.
